## TRUSTEES' REPORT.

CITY HOSPITAL, BOSTON, January 1, 1869.

TO THE CITY COUNCIL :

The Trustees of the City Hospital, in accordance with the ordinance establishing the Board, respectfully present their report for the year ending December 31, 1868, it being the fifth Annual Report.

The following is a statement of the number of patients treated during the year :

Patients in Hospital, Jan. 1, 1868	.	.	.	.	.	141	
Admitted, Medical	.	.	.	.	.	1,133	
Surgical	.	.	.	.	.	880	
Ophthalmic	.	.	.	.	.	61	
Small-pox	.	.	.	.	.	4	2,078
							<u>2,219</u>
Discharged	.	.	.	.	.	1,875	
Died	.	.	.	.	.	163	2,038
							<u>181</u>
Remaining	.	.	.	.	.		<u><u>181</u></u>
Largest number of patients in Hospital at any one time	.					230	
Smallest number of patients in Hospital at any one time	.					137	
Daily average number of patients in Hospital	.					172	
Medical Out-Patients	.	.	.	.	.	3,851	
Surgical	"	.	.	.	.	2,732	
Ophthalmic	"	.	.	.	.	1,652	
Cutaneous	"	.	.	.	.	559	
Total	.	.	.	.	.	8,794	<u><u>8,794</u></u>

## Number of Visits of Out-Patients :

Medical	.	.	.	.	.	.	9,672
Surgical	.	.	.	.	.	.	5,460
Ophthalmic	.	.	.	.	.	.	13,104
Cutaneous	.	.	.	.	.	.	1,520
Total	.	.	.	.	.	.	<u>29,756</u>

By reference to the accompanying report of the Superintendent, it will be seen that although the number of patients treated has increased 33 per cent for the year, the proportion of deaths is lower than ever before in the history of the Hospital, being  $7\frac{3}{10}$  per cent. This fact, considering the number of severe cases treated, is very gratifying, and is a strong proof of the skill and fidelity of the Board of Physicians and Surgeons. An account of the expenditures is given in detail, the result showing the average cost of each patient to be less than during the previous year.

The estimate for the current expenses of the financial year 1868-9 was \$85,000: this amount, owing to a larger number of patients having been treated from the Highlands than was anticipated, and the increased demands from other portions of the city, will be insufficient to cover the cost of maintaining the Hospital, and a small additional appropriation will be necessary. In this view of the case, the Trustees, believing that the number of persons requiring the care and attention here bestowed will, from the natural growth of the city, be constantly increasing, and that the cost of supplies will not rule much if any lower than during the present season, estimate the expenses for the financial year 1869-70, in addition to the income to be received from Trust Funds, as follows:

Supplies . . . . .	\$45,500 00
Salaries and labor including Superintendent's salary,	22,000 00
Fuel . . . . .	10,000 00
Furniture . . . . .	1,500 00
Repairs and grounds . . . . .	5,000 00
Medical supplies . . . . .	6,000 00
	<hr/>
	\$90,000 00
	<hr/>

Estimated income from paying patients . . . . . \$3,000

The average number of patients has exceeded that of previous years; during the winter months the Trustees were at times unable to accommodate in the pavilions all the patients admitted, and it was feared that it would become necessary to decline to receive further applications; but the unusual fact that the medical and surgical cases, as well as the sexes, were very evenly divided, enabled them with considerable inconvenience to the inmates of the different wards, and by using for free cases the rooms set apart in the centre building for paying patients to surmount the difficulty; and no person, who under the rules was a proper subject for the Hospital, was refused admission.

From this and other causes, the income from pay-patients will be less than the estimate for the current financial year, and the estimate for the coming year is made correspondingly lower.

Our city is progressing; the number of inhabitants is rapidly increasing by emigration and otherwise; enlarged facilities will add to the business of the city, and the demand for the products of their skill and labor will attract artisans and mechanics to establish themselves in our midst: while they have health, they are self-supporting and valuable members of society; in sickness, many of them require that temporary aid and assistance which this Hospital was erected to bestow.

The present accommodations it is feared will prove insufficient for the demands of the present winter, and unless it is thought expedient to limit the sphere of usefulness of the Hospital, the steady increase of patients from the city as at present bounded, even if none of the projects now agitated for the annexation of adjacent territory shall be consummated, will call for the erection of additional pavilions in accordance with the intent of the originators of the Institution; and it is hoped that the City Council will give this subject their careful attention.

During the year, improvements have been made by the addition of a new boiler, the substitution of brass in place of lead pipes for hot water in the pavilions, renewal of floor timbers in the basement of the centre building, and other general repairs.

The timbers as well as the sheathing had been seriously affected by dry rot from want of ventilation; care has been taken to guard against such difficulty in the future; there are, however, indications of similar trouble in the corridors, and the necessary expense of repairs is included in the estimate for the next financial year.

The Trustees have purchased, and caused to be placed in convenient locations about the premises, twelve fire extinguishers, — deeming it their duty to provide as far as possible against danger to the buildings, as well as the loss of life that might accompany the calamity of fire.

The new building occupied as a lodge and for the accommodation of out-patients was completed early in the year, and has proved eminently convenient and useful for the purposes for which it was erected.

This department is the most extensive branch of the Hospital and productive of an incalculable amount of benefit at very small

expense to the city, — there having been treated as out-patients during the past year 8,794 persons, making 29,756 calls, at a cost of about two thousand dollars. The medical patients increased so rapidly that it was thought advisable to elect a gentleman to be associated with Dr. Swan in their treatment, and Dr. Wm. B. Mackie was chosen to that position in April.

A department for the treatment of cutaneous diseases of out-patients was also established, under the charge of Dr. H. F. Damon, who has given especial study and attention to this class of diseases.

Early in the year, Dr. C. E. Buckingham was obliged, on account of the pressure of other duties, to again tender his resignation, and Dr. W. W. Morland from similar cause withdrew from the Board of Physicians; the vacancies thus occasioned were filled by the election of Dr. H. I. Bowditch as Visiting Physician, and Dr. Francis C. Ropes as Visiting Surgeon. The election of Dr. Ropes left the office of Surgeon to out-patients vacant, and Dr. M. F. Gavin was chosen to perform the duties of the position. Recently, another vacancy was occasioned by the resignation of Dr. J. B. Upham as Visiting Physician, and it was filled by the election of Dr. A. D. Sinclair.

Since their last report, the Trustees have been called to mourn the decease of one of the Board of Consulting Physicians, — the death of Dr. John Homans was a severe loss to the Hospital and the city; connected with this Institution from its commencement, first as Visiting Physician and later on the Board of Consultation, he was deeply interested in its welfare, and his active services and wise counsel were always freely and heartily given in aid of all measures calculated to advance its usefulness and maintain and increase its reputation. In life, he had in an eminent degree the confidence and respect of his brethren in the

profession and the large number of friends whom a long and successful practice had gathered about him. In death, the regard with which his memory is held in so many hearts is his best and most enduring monument.

Dr. B. E. Cotting, of the Highlands, has been elected as Consulting Physician, to fill the vacancy caused by the decease of Dr. Homans.

At this season of the year, destitute patients begin to reap the benefits of the "Norcross Clothing Fund"; it has already been the means of relieving the distress of several deserving persons.

The Library has not received any large accessions during the year, and the Trustees renew the request for donations from the public, of such books as they can spare from their collections, to be the means of causing the weary hours of the sick and suffering in our wards to pass more pleasantly.

The Hospital continues to be indebted to the clergymen of the city, of all denominations, for their kindness in conducting the Sunday services, which are fully attended, and productive of good results. In conclusion, the Trustees desire to renew their expression of thanks to the able and efficient Board of Physicians and Surgeons, and the Superintendent, for their unwearied and humane devotion to all that concerns the welfare of the patients, and the general reputation and interests of the Hospital.

## SUPERINTENDENT'S REPORT.

CITY HOSPITAL, Dec. 31, 1868.

GENTLEMEN OF THE BOARD OF TRUSTEES:

- It is with unusual gratification that I am permitted to present my Annual Report for the year 1868, and to submit the following statements of the finances and general transactions for the current year:

	1864.	1865.	1866.	1867.	1868.	Total.
Patients admitted . . . . .	475	1,066	1,432	1,534	2,078	6,585
Patients visited by Admitting Physician . . .	459	1,081	1,278	1,338	2,134	6,290
Patients admitted by Admitting Physician . .	231	696	961	959	1,483	4,330
Patients admitted by Superintendent . . . .	115	128	126	247	178	804
Patients accidentally injured . . . . .	129	242	345	328	417	1,461
Number of out-patients treated . . . . .	371	1,143	3,324	7,015	8,794	20,647

The number of out-patients who come daily to the Hospital for advice and medicine, in the several departments, are as follows:

Ophthalmic, under the charge of Dr. Williams . . . . .	1,652
Surgical, " " " " Gavin . . . . .	2,732
Medical, " " " " Drs. Swan and Mackie . . . . .	3,851
Skin Diseases " " " " Dr. Damon . . . . .	559
Total,	8,794

The amount given in my last Report, bearing date

Dec. 31, 1867, included all the fixtures and furni-

ture to that date . . . . . \$54,810 92

There has been expended during the past

year, for fixtures and improvements . \$3,510 96

For new furniture, additional . . . . 4,512 60

For surgical instruments . . . . . 557 32

For books for Medical Library . . . . 47 35

8,628 23

Total cost of furniture and fixtures to Jan. 1869 . \$63,439 15

The department for the treatment of skin diseases among out-patients, under the charge of Dr. Damon, was first opened in April 1868. Over five hundred patients have been treated in this department, and fifteen hundred visits made during the present year. Patients are seen daily, Sundays excepted, at 11 o'clock, A. M.; and clinical instruction and lectures are given to medical students and physicians every Tuesday, commencing at the same hour.

Several donations of valuable works on skin diseases have been made to the hospital.

Dr. Durkee has presented the following works:

Illustrations of Cutaneous Disease, by Robert Willis, M.D., folio, London, 1841.

Portraits of Diseases of the Skin, by Erasmus Wilson, F. R. S., folio, London, 1847.

Hebra's Atlas of Skin Diseases, New Sydenham Society, folio, London.

Guy's Hospital Reports, 8vo, London.

Dr. Foye has made a donation of the folio plates of Cazenave, illustrating the Syphilodermata. These are tastefully mounted in black walnut.

Dr. Cotting has also enriched the library in the department of cutaneous medicine, by several full length photographs of Elephantiasis Arabum. Other additions to the library and the cabinet are promised, for the purpose of illustrating this important branch of medical education.

During the past year, it must be acknowledged that the institution has been highly successful in carrying out the objects of its mission. There have been treated in the wards thirty-three per cent more patients than in any former year. At some periods, it has been taxed to its utmost capacity. There has also been a corresponding increase in the out-patients' department.

Too much encomium cannot be conferred upon the medical staff for their prompt and efficient services; and in this connection, I desire to renew the expression of my thanks for the encouragement and support that I have received from the members of your Board, and from all of those filling places of trust in the institution.

Respectfully submitted,

L. A. CUTLER,  
*Superintendent.*

## RULES OF ADMISSIONS AND DISCHARGES.

---

Applications for admission of patients shall be made at the Hospital on each day of the week (Sunday excepted), between 9 and 11 o'clock, A. M.

Whenever able, the patient shall apply in person. When not able to appear in person, application may be made by a friend, and the patient shall be visited by one of the House Officers, or by some Physician designated by the Trustees.

Any Trustee, or either of the Physicians or Surgeons in attendance, may, in case of emergency, send a patient in the first instance to the Hospital by written permit; and the Visiting Committee shall, on the certificate of one of the medical officers designated for the purpose, decide as soon as may be afterward whether such patient shall remain.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Permits for admission shall be subject to the approval of the Visiting Committee for the time being, or, in their absence, to that of the Superintendent.

The Visiting Committee, however, shall have the power at any time to require the Superintendent to report to them the names of applicants before admitting them, and may dismiss any patient whom they think improperly admitted.

Patients discharged on the recommendation of the Physicians or Surgeons shall be provided with a certificate stating their condition at the time of discharge, whether cured, relieved, or

not relieved, which certificate shall be signed by the Superintendent.

Patients may be admitted by the Trustees to the privileges of the Hospital, at such rates of board as they may from time to time determine; such board being secured by their friends, or by the authorities of the place to which they belong.

In all cases where, in the opinion of the Trustees, the circumstances of the patient will warrant it, the whole or part of the board shall be paid. If separate apartments, or articles not usually furnished at the Hospital, are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

## HOUSE RULES.

---

Patients must be in their proper places in the wards during the visit of the Physicians and Surgeons, and always by 8, P. M. unless specially exempted by the Superintendent.

Those free patients who are able are expected to assist in nursing, and in such other services as may be reasonably required of them.

Patients shall not leave the Hospital Grounds without a pass from the Superintendent, nor their respective wards without the consent of the nurse in attendance.

No patient shall purchase, or cause any member of the household to purchase for him, any article of food whatsoever, nor any other article, without the consent of the Superintendent; nor shall any officer or servant of the Hospital receive a gift or fee from a patient.

Profane or obscene language, loud talking, and incivility, are prohibited.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms which, in the opinion of the Physician or Surgeon, are capable of being relieved.

No patient having acute syphilitic disease, or *mania-a-potu*, shall be admitted as a charity patient, or at a lower rate than twenty-five dollars a week for the former, and fifteen dollars for the latter.

Patients may be visited by clergymen of their own selection;

and, where there is a wish for the performance of any particular religious rite, it shall be indulged when practicable.

It is expected that patients will implicitly obey the rules of the Hospital. Complaints, for whatever cause, may be made to the Superintendent or Visiting Committee; and, when reasonable, shall be by them reported to the Trustees.

All employés must be in their respective places during their hours of duty. The doors and gates of the Hospital will be closed at 9 $\frac{3}{4}$ , P. M., at which time all are expected to be quiet, and those not on duty, in their own rooms.

The smoking of tobacco is prohibited within the Hospital; also the use of wine and intoxicating liquors, unless prescribed by a physician.

#### VISITORS.

No person shall visit any part of the premises, except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or of some one of the Trustees.

On Monday, Tuesday, Thursday, and Saturday of each week, from 2 to 3 o'clock, P. M., friends may be permitted to visit patients, though no patient shall receive more than one visitor on the same day. In all cases, however, the Trustees or Superintendent may exercise discretionary powers as to excluding or admitting visitors.

No visitor will be permitted to take any meal in the Hospital, or pass the night therein, without permission from the Superintendent.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to the patients shall be left with the Superintendent.

#### NURSES.

Nurses are required to be in their several wards each morning, ready for duty, before the night watchers leave the same.

Nurses are to decide what clothing or other articles patients are to retain in the ward.

## STUDENTS.

The Trustees may grant any practitioner or student of medicine of one year's standing, on the joint recommendation of the Physician and Surgeon in attendance, a ticket of admission to follow the practice of the Hospital for not more than one year. Before receiving this ticket, the applicant shall sign an obligation to obey in all respects the By-Laws and Regulations of the Hospital. The privilege thus granted may be modified or revoked.

No student shall be entitled to admission except at the regular hour for visiting, operation, or lecture.

Every student, when requested, shall show his ticket to the porter at the gate, and shall conduct himself with decorum and propriety. It shall be the duty of the Superintendent to report any infringement of the rules to the Visiting Committee.

## FORM OF APPLICATION.

The form of application for admission shall be as follows:

## BOSTON CITY HOSPITAL.

The undersigned, inhabitant of \_\_\_\_\_ for the last  
and now residing at \_\_\_\_\_ born in \_\_\_\_\_ being  
\_\_\_\_\_ years of age; by employment a \_\_\_\_\_, married, and ill  
of \_\_\_\_\_, requests to be admitted to the City Hospital.  
Boston, \_\_\_\_\_, 186 .

## CERTIFICATE OF ADMITTING PHYSICIAN.

Having examined the condition of the said applicant, I find it a suitable case for admission to the City Hospital.

\_\_\_\_\_, *M.D.*

## TO BE SIGNED BY SUPERINTENDENT.

Admit		to the Hospital.	
Said		is assigned to ward	, bed .
Extra payment, \$	.	Transferred to ward	, bed .

## B E Q U E S T S.

---

Elisha Goodnow of Boston, by will dated July 12, 1849, makes the City of Boston residuary legatee to his estate, real and personal, for the benefit of a City Hospital. *Provided*, that one-half of the proceeds shall be applied to the establishment and perpetual maintenance of *free beds*, under the control of the government and officers of the said Hospital for the time being.

The following sums of money have been received :

1862, June 9. From executor's balance of account at Probate Office . . . . .	\$623 85
1864, April 14. Proceeds of sale of estate on Cross Street, containing 6,228 square feet of land . . . . .	\$14,907 12
Old buildings upon same . . . . .	223 00
1864, December 31. From City of Boston, for 225 square feet of land taken from above estate to widen Cross Street . . . . .	523 36
	15,653 48
1864, July 1. Interest on same from city to this date . . . . .	222 67
	\$16,500 00
<i>Amount carried forward</i> . . . . .	\$16,500 00

<i>Amount brought forward</i> . . . .	\$16,500 00
1867, November 30. From Boston, Hartford and Erie R. R. for 5,167 square feet land taken by New York Central R. R. from Estate on Third Street, South Boston . . . .	3,875 25
1868, January 1. Proceeds of sale balance of estate on Third Street, South Boston, 1,516 square feet . . . .	758 00
	<hr/>
	\$21,133 25
	<hr/>

1869, January 1. Of the above amount, say \$20,500 is invested in city scrip, interest payable semi-annually, at six per cent per annum, and deposited with the City Auditor, who is required to receive the interest upon the said scrip, and add the same to the moneys appropriated for the use of the Hospital.

The balance on interest in the hands of the City Treasurer to be invested as above is \$633.25.

1868, January. The \$10,000 deposited by the Executors of Mr. Goodnow, June 22, 1852, with the Massachusetts Hospital Life Insurance Company, the interest upon which is to be paid to the widow, will, upon her decease, be distributed as follows:—

\$500 to the Penitent Females' Refuge.

\$5,000 to City of Boston; income to be expended for the relief of sick and infirm persons.

\$4,500 to be added to the fund heretofore provided for the support of free beds in the City Hospital.\*

Lawrence Nichols of Boston, by will dated August 19, 1862, and recorded Suffolk Registry of Wills, vol. 160, fol. 140, bequeathed to the City of Boston, towards the support of a City Hospital, the sum of one thousand dollars.

\* Plans, copy of the will, and other papers, are on file with the Secretary of the Board of Trustees.

1863, April 29. The Executor of Mr. Nichols paid the City	
Treasurer \$1,000, less the United States tax .	\$937 25
The City of Boston paid interest on same .	62 75
	<hr/>
	\$1,000 00
	<hr/> <hr/>

1864, July 1. The above amount, say \$1,000, has been invested in City of Boston scrip, dated July 1, 1864, twenty years, with six per cent interest, payable semi-annually, and deposited with the City Auditor, as required by ordinance.

1865, March 14. Received as Residuary Legatee, from the	
estate of Mr. Nichols, and now in the hands of the Treas-	
urer . . . . .	\$530 50
	<hr/> <hr/>

1868, January 1. The Trustees have received the sum of two thousand dollars from Hon. Otis Norcross, as the foundation of a fund for the benefit of patients leaving the Hospital, poor and destitute of proper clothing. The principal sum is to be invested in a City of Boston interest-bearing note, to be deposited with the City Auditor, the interest of which to be collected annually or oftener, and paid over to the President of the Board of Trustees, for the time being, of the City Hospital, to be by him expended at his discretion for the benefit and temporary assistance of those patients who are in his judgment deserving, and who are destitute of proper clothing, in which to leave the Hospital, and having no means of procuring it.

Received interest, Norcross Fund, July, 1868 .	\$60 00
Expended . . . . .	28 44
	<hr/>
Balance . . . . .	\$31 56
	<hr/> <hr/>
